Commissioner of Patents and Trademarks

This application contains sequence disclosures that are encompassed by the definitions for nucleotide and/or amino acid sequences set forth in 37 CFR §§1.821(a)(1) and (a)(2). However, this application fails to comply with the requirements of 37 CFR §§1.821-1.825 for the reason(s) set forth on the attached Notice To Comply With Requirements For Patent Applications Containing Nucleotide Sequence And/Or Amino Acid Sequence Disclosures. Because the instant application is a Continuation of application serial No. 60/079,477 and the disclosure herein is that of the parent application, Applicants may request, pursuant to 37 CFR §1.821(e), that a computer readable form of the sequence listing filed in the parent application – if present – also be used as the computer readable form of the sequence listing for the present application. A printed copy of the sequence listing as an amendment to the specification with directions for its entry, and page-numbering, in advance of the claims must accompany the request, as well as the required Statement Pursuant to 37 CFR §1.821(f) of identity of the two forms of the sequence listing.

Applicant is given ONE MONTH, or THIRTY DAYS, whichever is longer, from the mailing date of this letter within which to comply with the sequence rules, 37 CFR §§1.821-1.825. Failure to comply with these requirements will result in ABANDONMENT of the application under 37 CFR §1.821(g). Extensions of time may be obtained by filing a petition accompanied by the extension fee under the provisions of 37 CFR §1.136. In no case may an applicant extend the period for response beyond the SIX MONTH statutory period. Direct the reply to the undersigned. Applicant is requested to return a copy of the attached Notice to Comply with the reply.
